CHAPTER V

CONCLUSION AND SUGGESTION

5.1   Conclusion

The researcher concludes by stating that Cake Application has a positive effect on students' speaking abilities based on the findings from ths study. It can be seen that t-observed was higher than t-table (t-observed > t-table) (6,32> 1,697) at the significant level of 0,05 . Besides that, it can be seen also from the mean score of pre-test in experimental class was 61,6 and the post-test was 83,6. The mean score in the experimental class from pre-test to post-test increased 22. Meanwhile the mean score of pre-test in control class was 53,13 and the post-test was 67,8. The comparison between the mean score of gained score in control class was 14,67.

Therefore, Ha (Alternative Hypothesis) is accepted which means there is significant effect of using Cake Application in improving the students' speaking ability of thanking and apologizing expression. Furthermore,because the strategy was simple to implement, students in experimental engaged in the teaching-learning process with more enthusiasm and active than than in the control group.

5.2   Suggestion

The research would like to give suggestion the following in relation to the study that has be done:

1. To the head master of MTs Babul Ulum-Pajak Rambe, it is nice to motivate and support the teacher especially English teacher to teach the students' speaking ability by using Cake Application because this strategy can effectively increase the students' speaking skill.

2. The English teacher should be motivated in speaking class. Because speaking is quite difficult for some students to pronounced every word in a sentence so the motivate strategy and application is needed for them to improve and develop their speaking skill, such as using Cake Application in teaching speaking skill, the students will be more understood how the way to pronounced the word in a sentence, and also after using cake application they are motivated to study English with a new and fun strategy.

3. The students hope that using Cake Application to increase their speaking ability in conversation and express their expression with using English language in front of the class individually.

4. Hopefully, the future research can be conducted by using Cake Application for teaching English skills can able be applied in teaching and learning process be better.
