

CHAPTER V

CLOSING

In this chapter, the researcher shows the conclusion of the data, which has been researched and followed by suggestions as consideration to the teacher, students and also the researcher in the future.

5.1. Conclusion

Based on research finding and discussion, the researcher make conclusion as follows:

1. The eight grades' students of SMP Darussalam Medan had difficulties in writing descriptive text. Their average of writing is only 3 from 10 students. Their struggled are from the content, vocabulary, grammar and mechanics. The most difficulty that researcher encounter is in the mechanics of writing, it includes punctuation, capitalization, and spelling. A lot of students make mistakes especially in capitalization and they lack of using punctuation. For grammar and vocabulary they just need to learn more about it. Then, they need to read more to develop ideas to improve the content aspect.
2. The factors that cause writing difficulties for students are psychological factor, such as lack of interest in learning English, not being motivated to learn and writing English texts and also writing anxiety where students are afraid of making mistakes before starting to write English text.

3. Suggestion

Based on the research results that have been described previously, the researchers would like to give suggestion to the English teachers, school and next researcher in order to improve the quality of learning English, especially in writing skill specifically in descriptive text:

1. For the English Teacher

It is essential to provide full motivation and support to students, as well as to stimulate their opinions, in order to increase their interest in learning English, particularly writing. Then, choosing the most exciting method that is appropriate for the class situation and the material available. As a result, the students will not be bored enough and feel interest to accept the teacher's content and finally they waiting for the next English meeting in the class.

2. For the School

Designing a new program, particularly an English program such as extracurricular activities or an English community, as a solution to students' challenges, it is a reasonable alternative strategy to solve students' English writing problems.

3. For the Next Researcher

This study focuses on the difficulties that eight grade students in SMP Darussalam Medan faced in writing descriptive text. As a result, by continuing this research, future researchers will be able to utilize it as a reference. The following researcher can explore further deeper into the connected issue.
