Identity of Informants/Participants

Interview result

1. From the four of English skills, reading, writing, listening, and speaking. Which one do you like the most?
    Answer:
    What I like the most is the writing skill.
    - Why do you like writing the most?
      Answer:

2. How do you practice your English skills during the COVID-19 pandemic?
    Answer:
    When it comes to practicing writing skills, I usually write poetry or write essays. Like the creative writing course, we are asked to write like writing poetry and writing on a blog. Since then, I have become fond of writing, especially writing essays.

    Answer:
    I watch youtube, look for suitable material on youtube and then I study it.
    - Are all our course materials on YouTube?
      Answer:
      There are, for example, discourse analysis courses. It's normal before I give a presentation, I'm confused about what the material is, I'm confused when I want to make a presentation. So I looked for material and then looked at YouTube, now after watching YouTube I understood the material I wanted to learn earlier. So after watching YouTube it was pretty good to solve my confusion problem.
    - Apart from YouTube, is there any other way?
      Answer:
      Yes, for example, look at the material in a journal. So we looked for the subject matter in the article and then it was understood.
4. What challenges or obstacles did you face when learning English during the COVID-19 pandemic?
    Answer:
    First, of course we don't understand the material. Second, problems in the network. Then there was a problem at the time of admission, sometimes the entry was not necessarily so the schedule changed until I was late for

one of the courses. Sometimes the lecturers don't come in and give the material just like that, there are no new innovations.

5. How do you overcome challenges or obstacles when learning English during the COVID-19 pandemic?
Answer:
If you don't understand the material for a solution, read the article. Look for the subject matter in the article then read and understand. For network problems, change the card, for example, we use 3, change to Telkomsel. If it's a matter of time to make an alarm, then the schedule for the lectures in the room's wall is also written.

6. How do you increase your vocabulary?
Answer:
There are actually many, first we can make a story in English. It's like making a caption like that, words that we don't know become known. Then, if you also make an English caption, we will interpret it so you know the meaning. Then the English song lyrics, as well as dialogue or conversation in the film. Then I also like to follow English accounts on social media, for example Instagram, sometimes I like to give new vocabs, how to read them, that's what it means.

Interview result

1. From the four of English skills, reading, writing, listening, and speaking. Which one do you like the most?
Answer:
Listening.
   - Why?
   Answer:
   Because I like to listen English songs. Besides that, I also like writing, because I like to write poetry in English.

2. How do you practice your English skills during the COVID-19 pandemic?
Answer:
During the covid pandemic, listening to English songs can increase vocabulary that I didn't know before. If you want to hone your writing, you can write poetry in English.

3. What learning strategies or ways of learning do you apply when learning English during the COVID-19 pandemic?

Answer:

The strategy I use, for example, before the lecture, for example h-1, I try to understand the material in my own language. For example, I'm looking for this material and then I translate it to Indonesia first. Besides that, I also look for material on YouTube, such as discourse analysis courses. After the explanation from Sir Idris I understood it again on youtube.

4. What challenges or obstacles did you face when learning English during the COVID-19 pandemic?

Answer:

The difficulty is definitely because I live in a network village. Then often when he wants to learn, his laziness is passionate. It's even better to lie down than study. Then it's also lazy because when it comes to covid, we learn on our own, while on campus or offline we can share the lessons with friends. For example, there is material that we do not understand, we can ask and discuss with friends.

5. How do you overcome challenges or obstacles when learning English during the COVID-19 pandemic?

Answer:

To fight that feeling of laziness, I remember my target again, like I have to graduate on time, so I'm automatically excited to study again because I want to pursue my target and I have to graduate quickly. In addition, if there is a task as much as possible, don't delay because the more you delay, the more you have to do it, the harder it is to do it. So I don't want to postpone my work because when I finish my work, I feel calmer to rest.

6. How do you increase your vocabulary?

Answer:

From Instagram, I follow several English accounts such as English Village or accounts that often make quizzes. For example, if the Indonesian language is made, the English will be written below, such as vote or choice of ABC. From there I came to know, oh this is English, yes, even though sometimes I guess wrong, but from that mistake I know. There is also an Instagram account that makes videos like other ways to say thank you, so we don't just increase our vocabulary by using thank you.
