APPENDIX 5

Observation's Field note

Beginning on Friday, May 20th, 2022, extensive research observations were conducted. The researchers had previously visited on the 9th to submit a research permission, but one of the vice principals for student affairs stated that learning was not as intense as usual the following week. Because the atmosphere of Eid al-Fitr is still there, researchers are recommended to return on May 18, 2022. Unfortunately, the person in charge of the permit is not at school until that day, so the researcher is asked to return the next day. Researchers were granted permission to conduct research at the school on May 19, 2022. The researcher's first step on the first day of research observation was to observe the situation and condition of MTsN Tanjungbalai. The researchers took a tour of the school. The only public Islamic school in Tanjungbalai is MTsN Tanjungbalai. The school was unable to handle all 749 students, thus it was decided to construct a second building on Jl. Sudirman KM3. At the same day the researcher began to form connections with a few of the teachers there. The researcher approached all of the teachers there, but she focused her attention and spoke with the English teachers in particular, especially those in the first grade. The teachers were quite pleasant and helpful. Because the researcher had previously made the first observation, it was not difficult for the researcher to approach the teachers. As a result, the majority of the teachers were aware of her presence.

On the 23rd, the researcher conducted a second observation, this time observing the class directly. The researcher spoke with the teacher in class VII before entering the lesson to choose which class he would investigate. The teacher chose class VII-6 because it was thought that they fit the purposive sample criterion mentioned earlier by the researcher, namely students who difficulty to learn to speak in class. Because there was an English subject in that class on that particular day, the researcher was allowed to attend the classroom at 10:40 - 12:00 a.m.

The researchers returned to school on May 27, 2022 to make the third observation. Learning English in class VII 6 takes place twice a week, on Mondays and Fridays, separately. On Fridays, however, the English teacher in the class, Ma'am Maysuryanti, always got permission to be late to class because she needed

time to teach the distance between the second and first buildings of MTSN Tanjung Balai, where their lesson hours were close, so the teacher is always at least 20 minutes late. As a result, researchers are asked to arrive early to take his position at the start of the period spent waiting for his arrival. On that occasion, the researcher took the opportunity to be able to make more detailed observations by encouraging the student to have a dialogue with the researcher so that the researcher could see what was difficult for them when they spoke in English. Things changed after their teacher arrived. They are usually silent and take the entire lesson without question. Two or three students may be really excited about taking English class. This could be due to fear and the need to be more serious than during the previous research session.

When the teacher encouraged students to respond to questions regarding the lesson or speak English in ordinary situations. They are usually passive. Actually, it's not that different from what early researchers have looked into. They believe that English is difficult to say and that making a mistake will cause them embarrassment if their classmates laugh at them. The lesson was in the present simple tense at the time, and when the teacher asked them to think of verbs they knew they could speak in English, only 1 to 5 people responded; the remainder preferred to remain silent because they didn't understand the English language or how to pronounce the words. Until the class closes at 11.45 p.m., the researcher continues to pay attention to anyone who might be a responder to be questioned the next day. They are no longer embarrassed or shy when researchers are present in the classroom. It's nothing new to them. Unlike the first day's observations, perhaps they were still confused by the presence of the researcher because the class had never had any research before. On the fourth day of observation, on May 30, 2022, it occurred. Researchers continue to make similar observations, such as students who are silent, kids who are sleepy, and students who avoid answering or participate in class and there have even been cases where students have been removed from class for disrupting with the lesson. The researcher was able to decide who could be the participants who would be interviewed the next day on the last day of observation; they were those who satisfied the researcher's purposive sampling criteria. After receiving the list of names, the researcher asked and discussed with

the instructor whether they were worthy or satisfied the criteria in the researcher's viewpoint, and the teacher finally agreed and stated that the students' selection was correct and that they could go to the interview stage.

Researchers conducted interviews during three days, on June 3, 6, and 13, 2022. There was a significant time gap since the school hosted a special event in honor of the principal's retirement, which required them to leave early, preventing researchers from taking their time as suggested by the teacher. On the first day of the interview, June 3, 2022, the researcher was able to interview 5 people from class VII-6, asking them 15 questions and capturing and recording key themes from their responses. The researcher then continued his interview with 5 more people from class VII-6 the next day, on June 6, 2022, until the interview completed on June 13, 2022 by interviewing the last six individuals A total of 16 persons from the 32-student class were interviewed by the researcher. The researchers were able to gain a more thorough understanding of the difficulties they had while learning to speak English in class as a result of the interview. Not only that, but the researcher also spoke with the teacher who led the class. There were students who were afraid to make mistakes, were embarrassed to appear in front of the class, there were still many uses of regional languages, and there was an attitude of laughing between classmates, according to the teacher, who provided many opinions and field facts that could help researchers complete this research. That became the primary issue, according to the teacher, which was their inability to learn. On June 17, 2022, the researchers were grateful that they had completed the study in the form of a farewell permit from all schools and were allowed to conduct the study there. Finally, the researcher returned the next day and received a reply letter from the school indicating that the researcher was legally conducting research there.

Interview field note with informant

Transcript of Interview 1

Interviewer : Researcher
 Respondent : Ma'am Maisuryanti S.Pd
 Status : English Teacher of 1st Grade of MTsN Tanjung Balai
 Date and Place : June 3rd 2022, 2nd building of MTsN Tanjung Balai

Researcher : Assalamualaikum Warahmatullahi Wabarakatuh Ma'am.
 Respondent : Wa'alaikumsalam Warahmatullahi Wabarakatuh
 Researcher : Eee, baik Ma'am sebelumnya saya ucpakan terimakasih Ma'am atas waktunya sehingga Ma'am bersedia untuk saya wawancara, yang data nya akan membantu saya dalam menyelesaikan skripsi saya. Jadi Ma'am terkait kelas VII-6 yang kemarin saya teliti, jadi sebagai refleksi yang lebih akurat, saya ingin bertanya kepada Ma'am mengenai hal yang serupa. Sebenarnya Ma'am secara sadar Ma'am menganggap siswa-siswa tersebut menyukai pelajaran Bahasa Inggris ato bagaimana ya Ma'am?
 Respondent : Sepertinya mereka menyukai, tapi kalo dari hitungan persen dari 100 mereka sukanya sekitar 70, 30% lagi kurang.  Researcher : Oke Ma'am, baik Ma'am. Jadikan Ma'am karna saya sudah mengetahui bahwa 70% dari mereka itu suka, jadikan Ma'am selama pembelajaran apakah Ma'am sering da praktik speaking didepan kelas?
 Respondent : Kalo praktik speaking udah pastil ah namanya Bahasa Inggris ekan? Itu udah pasti digunakan dan sering menggunakan kamus, jangan kan menggunakan kamus, saya sering itu kalo Bahasa inggris itu memperkenalkan apa yang sering digunakan di, di apanamanya di iklan, aaa, seperti itu. Saya implementasikan kamu sering menggunakan Bahasa Inggris sebenarnya dalam kehidupan sehari

- hari sudah sering kamu gunakan tapi tidak kamu rasakan dan tidak kamu praktikkan, itu saja nya.
- Researcher : Jadi Ma'am, Ketika Ma'am menyuruh mereka speaking di depan kelas gitukan Ma'am, mereka masih sering campur dengan Bahasa Indonesia ato gimana ya Ma'am?
- Respondent : Kalo campur sih tidak, paling orangtu diam ajo. Diam dan ketawa. Memang dicampur paling dicampurnyo kebanyakan yes dan no sajo, itu tidak lumrah lagi. Yes dan no tau orangtu itu sajola.
- Researcher : Ooo, berarti Ma'am, kalo mereka gatau berarti mereka memilih diam?
- Respondent : Iya, lebih memilih diam orangtu.
- Researcher : Oke Ma'am, jadikan Ma'am terkait cara Ma'am gitukan Ma'am, bagaimana sih Ma'am eeee mencoba membiasakan siswa tersebut agar mereka lebih lancer speaking nya gitu Ma'am.
- Respondent : Kalo lancer ya mumgkin susah lah, susah untuk dikatakan lancar. Cuma lagi untuk kata kata perintah "Sit, Go" dan mengulang Kembali pelajaran pelajaran gitukan. Kemana Ma'am? I want to go to office, eee gitunya. Ha, seperti itu ajanya.
- Researcher : Ooo, berarti lebih ke kalimat yang digunakan sehari-hari ya Ma'am?
- Respondent : Iya, lebih penggunaan sehari-hari.
- Researcher : Jadi Ma'am selanjutnya yang ingin saya tanyakan kan Ma'am, selagi mereka belajar gitu kan Ma'am, baik speaking maupun skill apa aja gitu Ma'am, kendala apa aja si Ma'am yang sering dialami mereka gitu Ma'am, kayak yang tadi kalo mereka gatau mereka milih diam, selain itu apakah ada kendala lain gitu Ma'am?
- Respondent : Orangtu kamus. Kamus ni malas orangtu membawaknya, itulah masalah kamus ni. Karna kata orangtu berat membawak. Sebenarnya kalo kendala apalagi mentranslate itu pertama kamus, kedua malu. Kalo ada kawannya umpamanya berbicara Bahasa Inggris kek diejek-ejek in yang lain. Ha, itu ajonyo masalahnya, sebenarnya kemauan orangtu ada. Tapi kalok dah pakek Bahasa Inggris, sok paten pakek pakek Bahasa Inggris, itu sajonyo kendala nyo.
- Researcher : Itukan tadi kendala yakan Ma'am. Jadi tadikan malu gitu kan Ma'am, jadi kalo misalnya dalam pelajarannya Ma'am? Ntah

orangtu gabisa makek Grammar nya atop ayah Pronunciation nya, itu apakah ada terjadi gitu Ma'am?

- Respondent : Kalo pronunciation itu mungkin. Pronunciation itu karna mungkin kit aini identic dengan orang tanjungbale n ikan apokan kasar, jadi pronunciation orangtu kurang. Tapi kalo Grammar, secara Grammar orangtu lebih mengerti kalo Grammar. Kan udah diterangkan rumus-rumusnya apa, tapi kalo pronunciation memang kurang. Apalagi dengan logat Bahasa tanjungbale ni yang....
- Researcher : Karna masih terbawak logat daerah ya Ma'am?
- Respondent : Ha'a
- Researcher : Jadikan Ma'am, sejauh ini apakah Ma'am masih berupaya untuk meningkat pronunciation mereka gitu Ma'am?
- Respondent : Sangat, selalu. Tapi itulah, disuruh karang bicara orangtu malu, nanti kok ado yang bicara macam sok paten, kan kegitukan. Malu nye ni untuk bediri malu, coba dulu ucapkan dulu pronunciation kito tu pinomat permisi kan gitukan, malu, disitu malunyo tu. Ha, jadi susah lah kalo malu cemana ha.
- Researcher : Ohh iya Ma'am, betul pulak. Terus Ma'am selama pembelajaran, sejauh ini strategi apa yang, apakah Ma'am punya strategi gitu Ma'am?
- Respondent : Kalo Ma'am, ya pakai pendekatan la. Pendekatan, biacara langsung apo masalah nyo, itu sajo. Dah itu, Ma'am sering tu yang memang pada dasarnya anak anak ni vocab nyo, vocabulary nyo, dari SD ni kan wajib sebenarnyo, kalo di Tsanawiyah ni kan dah tak wajib lagi daftar kata-kata. Jadi untuk menyusun kalimat orangtu bingung membuat kata-kata nyo jadi terpaksalah secara satu-satunya balek lagi la vocab sedikit dulu, kalo dia belajar descriptive text yak an, ha di ajarkan la dulu sedikit dulu kata sifat, ha padahal di Tsanawiyah itu gaada lagi dipelajari, itu ajala. Cuma mengulang lah sedikit dari pelajaran lamo lamo tu.
- Researcher : Berarti kekurangan vocab jadi kendala jugalah ya Ma'am?
- Respondent : Iya, vocab. Karna dari awalnya orangtu tidak punya, terkecuali yang les. Laenryo cerito nye tu pulak. Dari 100%, 32 murid paling lah 5 yang les. Itu ajo kendalanyo, intinyo vocab nil ah.
- Researcher : Vocabulary, rasa malu, itulah berarti ya Ma'am?
- Respondent : Iyoo, itulah dio kendalanyo.

- Researcher : Oke Ma'am, saya ingin bertanya pertanyaan terakhir Ma'am, jadi sejauh ini Ma'am, apala dan bagaimana cara Ma'am memotivasi orangtu biar tetap semangat belajar speaking gitu Ma'am. Karna sebenarnya kan Ma'am kalok dalam Bahasa Inggris kan memang ada 4 skill kan Ma'am (Reading, Speaking, Writing and Listening) iya Ma'am, tapikan yang pengen kita tonjolkan sebenarnya jika menilai itu kan pasti speaking dulu gitu kan Ma'am.
- Respondent : Iyo, iyo.
- Researcher : Jadi Ma'am, kekmana cara Ma'am memotivasi orangtu biar mereka tu sebetulnya bisa speaking.
- Respondent : Yo cemanola, ya jangan malu lah. Tak usah malu lah, apo pun salah pun ya disebutkan aja lah. Tak usah pala malu lah, gitulah, kalimatnya begitu sajolah.
- Researcher : Karna emang lagi dalam proses belajar juga yak an Ma'am?
- Respondent : Iyo, masih proses belajar, orangtu malus ajo, malu untuk salah, itu sajo. Tapi tetapla diterangkan, disebutkan, dan dibuatkan ditukisakan cara membaconyo di papan tulis cara bacanya ditulis ulang kata kata itu untuk pronunciation, itu sajonyo.
- Researcher : Baik Ma'am, paham Ma'am. Saya rasa sangat cukup Ma'am untuk interview saya hari ini, saya ucapkan terimakasih Ma'am atas waktunya, semoga lancar terus kedepannya Ma'am dan semoga lancar dan berjalan baik khususnya dikelas VII-6 yang saya teliti
- Respondent : Oke, Aamiin aamiin. A a a
- Researcher : Baik Ma'am, saya ucapkan Wassalamualaikum Warahmatullahi Wabarakatuh.
- Respondent : Wa'alaikumsalam Warahmatullahi Wabarakatuh.
