

## CHAPTER V

### CONCLUSION AND SUGGESTION

#### 5.1 Conclusion

Based on the results of this study, which was conducted at SMP Al Washliyah in class VIII-C, it was found that students of class VIII-C at SMP Al Washliyah were had a high interest in learning English vocabulary with used dictionary website as a media, where  $H_a$  is accepted and  $H_0$  is rejected. Students' interest in learning English vocabulary through dictionary book is relatively low, this can be seen from the results of calculations carried out by researcher, namely only 4 students, with a percentage of 16.67% who are interested in learning English vocabulary using dictionary book while the rest had doubts with percentage 83.33%.

Students are very interested in learning English vocabulary using online dictionaries at the moment, this can be seen from the results of the calculations carried out by the researcher, namely 21 students with a percentage of 87.5% who are interested in English vocabulary using dictionary website.

For the result, the students' interest in learning English vocabulary by using dictionary website is higher than dictionary book, this can be seen from the result of the calculation carried out by researcher,  $r_{11}$  from dictionary website is 6,5728. Meanwhile,  $r_{11}$  from dictionary book is 3,2783. However, the use of web dictionaries can reduce students' ability in English vocabulary. With the ease of using web dictionaries, students must master more accessible vocabulary.

This research contribute for teacher is the teachers get knowledge about their students' interest that they can determine how their students will learn best. They can also implement more creative methods to increase their kids' enthusiasm for learning.

#### 5.2 Suggestion

After conducting the research, several suggestions were given by the researcher for students, English Teacher, and other researchers.

1. For the students

Students should be more active and responsive during the teaching and learning process., so that each material provided can be understood well especially for English vocabulary. And also advice for all students, don't stop learning vocabulary, keep practicing and improve students' English skills because if students can understand the meaning of word, sentence, or paragraphs accurately, students will feel that English is easy and not difficult.

2. For the English teacher

For the English teachers, to further improve the quality of their teaching by using various methods so that students' interest in learning increases. Thus, students can reduce their mistakes, especially in grammatical translation and knowledge of vocabulary.

3. For the other researcher

In order to expand this research with other topics, it is hoped that other researchers will find the results of this study to be helpful for the teaching and learning process as well as for other researchers' research projects.
