

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

5.1. Conclusions

After analyzing the data, it could be concluded that:

1. Based on the result had done, the application of Personal Vocabulary Note (PVN) technique could improve students' vocabulary mastery. This strategy could increase the students' vocabulary mastery with finding out the new word in the text, and then put it out at the note, and after that memorizing it with the meaning.
2. The classroom atmosphere when the strategy being applied in language teaching was going very well. The students' response was very good after application personal vocabulary note technique. It was visible in the students' responses during the learning process and on the observation sheet. The students responded with more zeal, passion, and pleasure in learning.
3. The students' vocabulary mastery after applied Personal Vocabulary Note (PVN) technique has increased. It might be demonstrated by the students' scores. The pre-test mean was 54.78, the first cycle's post-test was 65.86, and the second cycle's post-test was 85.65. As a result, each cycle saw progress.

As a result, the research hypothesis was supported because the Personal Vocabulary Note (PVN) technique may improve the students' vocabulary knowledge at SMP IT Darul Fikri Tanjungbalai's ninth grade. The use of the Personal Vocabulary Note (PVN) technique in the learning process is thought to be helpful, making it easier for students to increase their vocabulary competence.

5.2. Suggestions

The researcher makes the following recommendation based on the findings of this study:

1. For the principal of school

Because the results of this research reveal that personal vocabulary note technique can improve students' capacity to learn vocabulary, the principal of the school can advise to their English instructor that they utilize this technique in teaching vocabulary.

2. For the English teacher

Personal vocabulary note technique should be used by all English teachers, especially while teaching vocabulary. This method is appropriate for students in elementary school. Also, as teachers, we teach students from various eras, cultures, and situations, so we must continue to learn in order to improve our knowledge and teaching skills. Never stop learning.

3. For the students

The students must work on expanding their vocabulary. Because one of the most important aspects of English is vocabulary.

4. For the next researchers

The following researcher can use the personal vocabulary note technique and do research at a different school.

5. For reader

This research might serve as a starting point for new research or an inspiration for using the personal vocabulary note technique in the teaching learning process.
