Male Students' Recount Text

AUTOBIOGRAPHY

I am Bayo Hafidzi Ma'ruf Batubara, that is my full name, it was given by my grandfather, it means "Boy guardian of kindness". I was born on the 30th of June, 2001 in Medan, North Sumatra. From an early childhood I was already an exceptionally active and kind of naughty of a boy. My parents always complaining about me for always running everywhere, such as to kitchen, bathroom, living room and any other places in the house that i don't need to run into. Because of my habit for always running, they dubbed me "boy who cannot walk" and I also have broken some stuff in the house which resulted in me getting spanked.

When I first go into kindergarten I was 5 years old, then when i reached 6 years old, I went to elementary school of Muhajirin Private Madrasah Ibtidaiyah (MIS Muhajirin). There is where my development both as student and person began. In the first grade I was so confused of what happening around me, so I did nothing, I didn't do any homework or assignment whatsoever and because of that i was ranked the lowest. Then from then I started to figure out what is happening and slowly but surely I increased my rank to the point I was ranked the highest rank of my elementary school life, 3rd rank of 44 students in the 6th grade, thus ended my elementary life hood with a quite impressive result.

After that I went to junior high school in State Madrasah Tsanawiyah 1 Medan (MTsN 1 Medan) and I went to senior high school in State Madrasah Aliyah 3 Medan (MAN 3 Medan). Through my junior high school I do not have much of memorable or precious moments with the exception of when all of my male classmates are called to the teacher's office to interrogates us about the money that one of my classmates stole from his parents with the purpose of giving them to several of our male classmates, luckily I am innocent and therefore released without any further questions.

There are some moments in my senior high school which I considered 'unforgettable', from the bullying in our class on one of my classmates that resulted in him moved to other school to when I was skipping school for entire two weeks without my parents notice, which resulted in me getting a parents call to teacher's office. Now, I am currently a college student in Islamic State University of North Sumatra (UINSU) and as of now are taking English Education Major in the 3rd semester, I chose English Education Major because I love learning about English language so I could understand more about western culture and I hope I can utilize my English skill to apply for future jobs and chase my dream which I have not clearly figured it out yet.

Name : Ryan Anugrah Harahap

I was born in South Tapanuli 19 May 2000 and became a student at SMA Negeri 4 Padangsidimpuan. I have hobbies related to drawing and also sports, especially swimming. For me drawing and swimming are two important things that I really like. When I was little I lived near the foot of a mountain in a village. every rainy season my house which is made of planks and wood must shake because of the strong wind. also I with my family can only pray and repair the house if there is damage Stepping on my first year of high school, I began to realize that there are many problems in this village, for example, trees that are being cut down, garbage scattered around, and the uncontrollable temperament of teenagers. and actually this is not just the government's responsibility. The community must also take responsibility for overcoming these problems. One of the ways is by not littering, holding rehabilitation, counseling and so on. Since then we decided to move from the village. Move to a caring environment. Now I feel happier living in a new place. Currently I live with my father and mother who work in the garden that we have managed.

I am Lutfi Reynanda, born in Jakarta on August 8, 2001. Since childhood I have lived in the city of Bogor. In 2007, I started to enter elementary school. I school to Cibuluh 6 public elementary school.

6 years later, I was in junior high school. I school at junior high school 15 Bogor. at school, I took part in volleyball extracurricular activities. I didn't understand how to play volleyball at all before.

Every day, me and my friends practice hardly. Before practicing, we usually warm up first. After that we learned the basics of volleyball games such as passing, servis, smash, etc. we train with enthusiasm even though we have to be excited, because we train on the pitch.

After practicing for a long time, finally my friends and I could participate in a volleyball match held by another school. When the match started, my heart was beating fast. I am afraid if I fail in that match. and finally our efforts have paid off. volleyball team from public junior high school 15 Bogor be the first. Me and my friends were very happy. we are so excited to practice again and again. Since that, volleyball is my hobby until now.

Muhammad Azhari Ramadhan Harahap

0304192111

TBI 3/ 3th semester

Advance Writing (Ma'am Utami Dewi, S.Pd, M. Hum.)

My name is Muhammad Azhari Ramadhan Harahap, many people call me Azhari or Ari. My hobby is running and playing football. My age is 19 years old, I was born on 11th of December in 2000, in TanjungTiram a small town in Batu Bara, but i live in Tanjung Balai.

My father's name is Zuber Ahmad Harahap, He is trader and my mother's name is Nurbaiti, she is civil servant. And I have a older sister, she name is Wahyuni Mustika Jannah Harahap, you call her Ayu, Now, my sister is studying in University of Jember. Since childhood, my father always give us advising about good things.

When I was 6 years old I studied in SDN 1 Tanjung Balai, after graduated, I continued my education in SMP N 2 TanjungBalai. And after graduting from there my parents asked me to continue my education in Islamic Boarding School in Medan, the name is Darul Arafah Islamic Boarding School. I finished my study until four years. And now I continued my education in Islamic University of Nort Sumatera. And I took English Education study program.

Name : Faisal Fallah
Class/Sem : TBI-1/III
NIM : 0304191011
Major : Advance Writing

AUTOBIOGRAPHICAL WRITING

My name is Faisal Fallah who is now 19 years old, and is currently studying as a student majoring in English Language Education at a state university in Medan. I was born in Arongan to be precise in West Aceh on January 4, 2001, and is the second of three children.

My family is not a rich family but they are well off economically, my father, Didi, is a private employee in an oil palm plantation company. He works in the palm oil smelting division. While my mother is only a housewife, and my brother is married and has one child.

My success in getting into a state university was certainly not an easy and achievable road. Of course, through a long and full of obstacles, I was always looking for ways to get a scholarship, and never stopped learning to achieve this success. Apart from studying, I also help my mother with homework.

When I entered the final year of high school, I was very grateful to have graduated at a public university without testing. My high school days were full of struggles, I went to school at 06.30 WIB because my house is approximately 23.5 km away. At first I didn't want to go to school that was far from home, but because of that, my parents wanted me to accept it. Day after day I passed and finally I graduated from high school.

Before entering college I wanted to study computer major because that was my expertise by enrolling in the invitation route, when I wanted to register with a computer major I was disappointed because there was no computer major that could be taken because of the system from the invitation path. Finally I took the English Education Department which is also my favorite subject. As a result I was surprised because I graduated with the English Education Department.

I believe that the results are in accordance with the process being carried out, and in the end are correct, until I finally passed the invitation route without testing. And then came my lecture period.

Since college, I understood many new things that I didn't really know. I managed to enter my favorite department, and finally I aspire to this major so that my parents' lives change. The first time I took classes I felt very uncomfortable because I wasn't used to living in groups with people other than my main family.

Name : Rizky Ananda Anakampun

NIM : 0304193223

Autobiographical writing

Hello guys my name is Rizky Ananda Anakampun. That is my full name . When I in the Senior High school My friend call me “Iky” but when I continue my study in university my friend also call “Rizky” but whatever about my nickname I always love when they are called me because that means they are need me. I was born in Sidikalang 17 November 2001. So I am 18 years old but in this month In 17 November I became as 19 years old. I think in my age I will really hard to control about myself . I will give you example now I hard to sleep at the right time that is 7-8 hours. I live I Sidikalang city with my father. I have 1 younger brother.

I am Entering my first education in 6 age. When I was in elementary school , In the First class surprisingly I got the rank in my class in the first semester I got 2rd and in the second semester I got 1st and that would be continued until the third class. Oh ya in my elementary school I studied in SD 034779 Sidiangkat . That is near from my house. But I always coming lately hahaha.

After I pass my elementary school I continue to junior high school. I studied in SMP N 1 SIDIKALANG . For your information my daddy working as a teacher over there. So we always meet in the class. But that’s not make my score will be high . I have to fighting with my ownselfes. In my Junior high scholl I got any achievement There are I got the rank three when I follow the karate tournament , and I came be a the OSIS member , And then I joined a marching band in my junior high school.

After that after I pass the junior high school I continue to the Senior high school And Alhamdulillah I can continue to the best Senior high school in my town that is SMA N 1 SIDIKALANG . In this session I have many achievement from the first class until the last class. I became as a leader ROHIS in my school , And then I became a leader in my class for 3 years and then one thing that I cant forget I reach the echievement too in karate too . That is the most thing that I cant forget.

Became as member UINSU its not my goals before because I always want to be a doctor but I cant do that but became as member of UINSU its not to bad. I can give you a fact that is from the first semester and second semester I have been reach the perfect GAP that is 4.00 that really out of my expectation . I need to do my best so I can reach perfect GAP. In a learning activity, my friend or my family usually said I am the ambitious boy, what I want must I get and it applies since I was in elementary school. And, my ambition character not only applies in the learning process but I also active in an outdoor activity like sport and i like about art . Of course, every school has extracurricular and from elementary, until senior high school, I always join club like football club or i join the class to playing guitar . But that is just a hobby

Name: Haris Suwanda

Nim: 0304192037

My name is Haris Suwanda. I am the first child of two siblings. I was born on 18 March 2001. I was born in the village of Marindal II. A village located in Patumbak sub-district, Deli Serdang district.

I started school at the age of 5 when I was still attending kindergarten at TKA Melati. A school located near my house. After that I continued to primary school level I studied at MIS al-Hidayah and successfully graduated in 2013, then I continued to the SMP / Mts level at MTsN 1 Medan which is located in the Patumbak sub-district, and after completing MTs in 2016 I continued SMA / aliyah in MAN 3 Medan, a school which is also located in the Patumbak sub-district.

Since MTs I became interested in the world of organizations. I joined several organizations at school such as Scouts, Qsim, and environmental organizations in my school. But at MTs I haven't really been involved in some of these organizations, I prefer to continue my hobby, which is playing football / futsal.

At MTs, I managed to bring the good name of my school to the Medan city level madrasah student creativity competition (axiom). There we managed to become the second winner. And there are still many futsal sports events that we won at that time. One thing that impressed me the most was when we participated in a tournament at the Shafiyatul Amaliyah educational foundation we won first place. Until finally I managed to complete my education at MTs in 2016 and continued at the aliyah level.

At Aliyah, I was also initially interested in futsal. I have participated in several tournaments at the aliyah level. But my interest didn't last long because I felt bored with it. Until finally I was invited by my friend to take part in scout extracurricular activities.

This is where I started getting to know the organization. I learned a lot about leadership from boy scouts. At that time I was also entrusted with the task of coordinating the equipment sector at Qsim di Aliyah. And I was also the coordinator of activities at the Boy Scouts where I went to school, after that I also served as the customary leader of the troop council at Boy Scouts 3 Medan. Until finally I finished my aliyah in 2019 and continued my education to higher education.

I studied at UIN North Sumatra majoring in English Education. In college I was also attracted to several organizations such as scouts and others. But all I didn't do was because I thought I still wanted to focus on college. Until now I have not been in any organization but, I will definitely return to organize to fill my spare time.

UNIVERSITAS ISLAM NEGERI
SUMATERA UTARA MEDAN

I am as myself **Zikril Mulia**, also known as Jack or @mulia_angkasa. I am 20 years old and I was born at 22th of July. I am bachelor student of English Education Department of State Islamic University of Sumatera Utara. Moreover, I am the seventh son from the eight brethren. It is quite extraordinary to let you know that I have wrote several books and they are: **Kiefaisha Gadis Penawar Sendu** (Harasi, 2018), **INTAI** (Loka Media, 2019), and **Antologi Cinta** (Loka Media, 2020). My first manuscript drama won the best scenario of drama contest, 2015. **Mimpi-Mimpi Abdullah Ibnu Qushai** was staged on Drama Contest, 2015, and I were as its play director. I was being one of the participants in **International Global Network Mentor Class**, 2020. And afterward, in 2018 I finished my study at Modern Islamic Boarding School Misbahul Ulum.

The moment that will never be forgotten by me—beside studying in Misbahul Ulum—was when I have selected to continue my study in Bandung several month or ten month only. Even now days, I missed to go over that moment anymore. You guys (probably) would not believe that how does this thing happened to me and also I do. I didn't ever dream about it. Allah has met me with the weird friend from Kalimantan, obedient person from Ternate, the humorous one from Bandung and advance, several others. They made me survived to leave there until the insufficient months, tho.

Someday, I definitely desired to write about my life trips from the elementary school then what's happened next in my age left. In the October, I finished writing my first poem and hope this will published soon and you all be able to read it. However, I also like human. Sometimes I failed and get up, failed again, then get up more. At once, I have to become stronger than the failure itself to secure the hopes.

Thence, if you think you will be part of my friends therefore, do not hesitate to come in to my home and let's split everything (possible things) with me. You guys free to transfer me what you felt, because I will keep it as I keep myself forever and ever. Trust that I would be your best friend to express (whatever) anytime.

Don't forget to salute or say *salam* when you knock my world at:

Instagram : @mulia_angkasa

E-mail : akhizikril07@gmail.com

Blog : muliaangkasa.blogspot.com

Assalamu'alaikum warahmatullahi wabarakatuh, hello my name is M. Farhan Husaini Siregar. I am 20 years old and I come from a simple family. I was the first child in the family, mom and dad waited for my arrival for a long time, using my foster brother as a bait so that after 7 years of adopting him, then I was born with my parents.

I was born in Medan, in a hospital that was neither too expensive nor cheap. My childhood was passed like that of a child in general, what is special is that my mother really loves me. My house is neither big nor small, it's enough for us as a family. I am a spoiled child to my mother because I really can't be away from her.

I went to school at the Nurul Hasanah educational foundation, not far from my house, but I was too tired to walk. I am a good child according to my parents, although a little naughty but it's natural because I am overactive. Then I entered one of the madrasa schools in Medan, a school that is quite a favorite, people say

I went to school at Madrasah Tsanawiyah Negeri 2 Medan in 2012 and graduated in 2015. I'm not smart but I'm not stupid either, I'm just trying to figure out something I need to know. Then after graduating from Madrasah Tsanawiyah Negeri 2 Medan, I was accepted at Madrasah Aliyah Negeri 1 Medan in 2015.

Not being a champion while studying there did not discourage me, because I once read a quote that if I remember correctly uttered by Albert Einstein, he said "No need to be a class champion, just be in the middle" and I interpreted this deeply, understanding I will quote that is that we don't need to be class champions, but we must have knowledge about anything.

Then I entered the university level but in the first year I did not want to continue to that level, I focused more on becoming a police officer, continuing my late father who was also a police posthumous. But what can I say I failed in the academic rankings, one of the stages in the test to enter police school at that time.

I realized again that I would not succeed if I did not hone my skills, in all fields. I only focused on one area like physics, regardless of the knowledge I needed to take the test. I kept looking for gaps in my shortcomings and little by little I fixed them, then finally I chose to study, and I focused on the State Islamic University of North Sumatra, since my mother graduated there too.

While I was enrolling for college I also prepared for the police entrance test for the second time, with a more mature and better understanding of the terrain I was going to go through. I was really excited at that time, but what can I say, a few days before my enrollment I caught a virus that caused my leg to become infected at that time, and I couldn't walk for about a week more due to swelling.

I returned to take a lesson in my life after that incident, that no matter how hard we try if it hasn't been our luck, then we still won't be able to achieve it. thank you for reading my short autobiography, wassalamu'alaikum warahmatullahi wabarakatuh.

Appendix III

Female Students' Recount Text

Autobiography

My name is Wahyu Juliani, usually called Ayu and there are also those who often call various names in every place starting from Yuni, Juli, Ayu, and Wahyu. I was born on July 19, 2001 in Padangsidempuan. My father's name is Syamsul Irwan as a teacher, and my mother's name is Dumaria as a teacher. I have one brother, namely Rahmat Syair Habibi.

I started school when I was six years old at Aisyah Kindergarten in Padangsidempuan. When I was in kindergarten, I often participated in drawing or painting competitions even though I was never a winner and was always a participant and running competitions that often won competitions even though not being the first. Then when I was 7 years old, I continued my next study at SDN 200219 in Padangsidempuan. I didn't really have close friends when I entered school, only a few people. At school, I am a casual person. I am not popular, but I always was reaching number one or two at class. And graduated from elementary school in 2013.

Then, I continued my next study Junior High School at SMPN 2, in Padangsidempuan. I met a lot of new friends from various regions and I met my kindergarten friends and we were in the same class. Then I graduated from junior high school in 2016 and I get my next study at MAN 2 Padangsidempuan. At the beginning of entering MAN 2, there was an exam to choose a major, and I graduated in the Science major. In MAN 2, I met again with many people from many different schools and I also made a lot of friends because every time I graduated there was a "class rotation" system so that I had to say goodbye to old friends and meet lots of new friends. I studied many things in there, especially about the knowledge of Islamic religion. Then I graduated from MAN in 2019.

And now I am continuing my study at State Islamic University of North Sumatera. I took English Education Study Program in Faculty of Tarbiyah and Teacher Training. Although at first I was confused about choosing a major between pharmacy and English language education because since I was little I was only interested in 2 things. Finally I chose to major in English education after discussing it with my parents.

My hobbies are reading, watching movies, playing games, culinary tours, and traveling to interesting and historical tourist attractions. When I was a little, I always dreamed of going to various countries. Either just for a walk or continue my studies there. But my dream is to graduate from the State Islamic University of North Sumatera. So that I can become a Bachelor, and make my parents proud of me.

Name: Ruri cendra kasih

Class: PBI 3/3nd

Nim: 0304192118

My name is Ruri cendra Kasih, I am usually called Ruri, I am the second of four children, I was born on May 30, 2001, I live with my parents and I have 1 older sister and 2 younger brothers.

I started school at the age of six in elementary school at SDN 060843, in elementary school I was known as a quiet girl because I was the youngest in the class but as time went on I was no longer quiet, after graduating from there I continued junior high school at SMP Muhammadiyah 57, and here I won many achievements such as class champion, speech winner, recitation champion of the Qur'an and I was also a student who received a tutoring scholarship, then I continued high school at Madrasah Aliyah, Laboratory of UIN North Sumatra Medan , I also became an active student in my school and I participated in many activities, I also won the class and now I am a student at the State Islamic University of North Sumatra, Medan, majoring in English education.

During my education from elementary school to university, I participated in many organizational activities, one of which was joining the Scouting organization, I really like nature, therefore I chose to join the Scout organization, from elementary school to college I still follow the organization. This Scout, and now I am also a teacher at the Medan National Hero Middle School and the East Medan Branch Working Council. There are so many places that I have explored, especially in fields such as Mount Sibayak, Camp Sibolangit and many more, a lot of my experience from this scout organization, I became more independent, and I was taught to be a leader, I am also required to be brave, Honest, disciplined, and hard working, apart from studying and following the organization I am also busy working at the cafe to meet my needs and I really enjoy my life.

I'm Winda Aulia. People used to call me ~~winda~~, wind, or ~~nda~~, but my mother used to call me "ja". I was born on October 4, 2000, in one of the great cities of Sumatra, Medan. I was the first of two children, of the couple of Mr. ~~Suberman~~ and Mrs. ~~Astuti~~. I was born from a family full of simplicity. My father was an employed at one of the limited ~~company~~ in Medan, and my mother was just a housewife.

From my childhood, I was taught by my family to grow up to be industrious and humble person. I am currently living separately by my parents for some reason. I live with my younger sister, at my grandmother's ~~house~~. Yes, I have a younger sister who is 12 years old, quite the age difference, right? She's still in junior high school.

I used to kill my free time to singing as much as possible, listening to music, and reading romantic ~~novels~~. Yes, only romantic genre ~~ones~~. Other genres I don't really like, because it will be boring. Singing, reading novels, and listening to music to release ~~boredom~~. Not to boast, I want to tell a little about my singing talent. There are some people who offer me singing jobs in cafes in Medan, but I can't accept this job yet, because I'm not sure my parents will give me permission.

Talking about music, my mother has registered me at a music study venue, to be precise, at I'm 15. At that time I was in grade 2 junior high school. I only studied music for a few months, considering that at that time I was going up to grade 3 junior high school. I happened to study music with one of the teachers who taught at my ~~school~~. Honestly, I'm regret, because my music teacher once said "Winda, if you want to learn music, you have to learn vocal technique and you have to master at least one instrument". At that time I was really forced to learn guitar, because my only goal of learning music was to develop my vocal technique. And as a result now I regret that I am not good at playing the guitar, so maybe I only remember a few chords, that's just the basic ~~chords~~. I've also been in several mini music contests held by sponsors, but I've never won. Yes, it's okay, just experience it is enough.

My educational history began when I was 4.5 years old. I went to RA ~~Fatima~~ Kindergarten Medan . During kindergarten, I was classified as an agile and diligent kid. I almost never missed the school. Usually, I go on foot with my mother from home to kindergarten which is across the street near my house or take a rickshaw. Then, I continued my elementary school at ~~Budisatrya~~ Medan Elementary school was a time when I played a lot. Even though I played a lot, Alhamdulillah I was never naughty. After I came home from school, during the day I learned about Islam (~~mengaji~~) at Madrasah ~~Diniyah~~ ~~Awwaliyah~~ ~~Hidayatul~~ ~~Muslimin~~. I often appear at the Prophet's birthday or Isra ~~'Mi'raj~~ to read a Nobel Qur'an.

After graduating from elementary school, I decided to continue to the same junior high school, namely ~~Budisatrya~~ School. My school is one of the famous schools in Medan ~~Tembung~~ ~~District~~. I was in junior high school in 2012. The extracurricular activities that I attended when I was in junior high school were student council (OSIS) and choir. Junior high school brought me to maintain my achievements. In this junior high school, I got to know music even more. Yes I enrolled my mother to study music, but only a few months.

After graduating from junior high school, I went to the same high school again. Yes, this sounds boring. My school is only a few steps from my house, too close maybe I can ~~say~~. When I was in senior high school, I joined the student council (OSIS) and choir organization. When I was in senior high school, I really felt that I had a lot of friends, the friendship was getting wider, I was happy at this time. I had time to register again to become a member of studying music, but only for a few ~~months~~. During senior high school, I developed my singing talent by participating in mini contests or even as a school representative for a competition at one of the famous universities in North Sumatra, namely UINSU. I'm with my friend who is Dini. Of course we are trained by a professional teacher, his name is Pak Surya. Even though, I didn't win, I was proud to have represented my school and been one of the contestants.

After graduating from senior high school, I originally thought about working. Because my Mother wanted that. However, circumstances didn't permit. I decided to take the SBMPTN and didn't pass. At that time, I was really sad. I am brokenhearted. Yes, maybe at that time my expectations weren't as big as my efforts. I didn't continue my education, and thought that I will try it again next year. When I was in that year, I was offered to become a kindergarten teacher, and I immediately accepted happily. Think of it as training to be a teacher. Yes, I aspire to become a teacher, any teacher, the important thing is a teacher. Actually, my mind began to open up about this ideal when my Father said "I really want to see you become a teacher, because you can get extraordinary things. You can get good things for the hereafter (~~amal~~ ~~Jariyah~~) and a bonus salary for the world". My determination is increasingly determined to become a teacher.

In 2019, I officially became one of the English Language Education Students at a University in North Sumatra, namely UINSU. I really hope to be a student who contributes to advancing education in this country. After graduating from my bachelor's degree, I really wanted to be a professional educator and be a blessing to this world and the hereafter.

Story of My Life

My name is Elza Fauziah Harahap. I was born on March 19, 2001 in Padangsidempuan. I am 19 years old now, and next year will be 20 years. People usually call me za, elza, el, eza and ejong. I am the second child from 3 siblings. I was raised and grew up in my city that I love, Padangsidempuan, where all my bitter and sweet memories happened as time goes by. I live with my parents and my 2 siblings, they are Sarah and Fatur. I live with simplicity and full of happiness.

I started school when I was 6 years old in 2007. I went to Aisyiah Kindergarten. And then in 2008, I continued school at elementary school 12 Padangsidempuan which is not too far away from my home. When I was in elementary school, I always got in the top 10. And I also participated in several competitions as singing competition, even though I did not get any award at that time, but everyone still appreciated my hard work and they loved my voice. But, I think the period of elementary school I do not like the most, because that was when I had friend which have bad attitude and loved to fight, and also there was some cheating.

And then I continued at junior high school 1 Padangsidempuan. In this school I started to find some of my specialties in something, like in lesson and hobbies. I really like English, Arts and Islamic religion, even when I was in elementary school. I always got good score for this 3 subjects. During this time, I also made pretty good achievement, always in top 7. I made my parents proud to me at this time. I was also quiet active participating several activities such as carnival to commemorate the birthday of my town. I was always chosen as conductor to represent my class, because they know my ability and interest in music. I really like my junior high school, because I was close with my friends and all of them especially the girls in my class were really kind to me.

In 2016, I continued my education to senior high school 2 Padangsidempuan. This was the most difficult moment for me full of bitter and sweet, because at this time I felt like I have to think about my future, where should I continue my next education. It was at this time I often fell sick due to fatigue and some reasons. The most unforgettable moment in senior high school was when I was chosen as part of choir. I was really happy. Choir member and me were active in participating big events like commemorating national day. We will sing national anthem and other national songs. I have been interested in singing since I was in elementary school. I still remember the first song that I sang, it is price tag by Jessie J, and another song which make my friends amazed was Grenade by Bruno Mars. And after that I continue and improve my singing skill. I really happy if I memorizing that time.

And now, I study in State University of North Sumatera (UINSU) in Medan and majored in English. I have been interesting in English since I was little and I decided to take English major. I hope I can graduate with good score and I can reach my dream. I also wish to continue my education to a higher level, getting a master's degree.

MUSTIKA YANTI
AN AUTOBIOGRAPHY

My name is Mustika Yanti, was born on November 12th, 2001, in Ajamu –a town in Labuhanbatu regency. By the way, my name was not given by my parents, but it was given by a nurse whom helped my mom at that time. Mustika itself is defined as a treasure that must be guarded, whereas Yanti means soft and peace. In conclusion, Mustika Yanti means a soft and peace treasure that must be guarded and saved. Now, I am 19 years old.

I entered kindergarten when I was 4 years old at RA. Al-Munawwarah. While I was there I had a number of achievements such as best student and got several medals for winning traditional dance contest. Then, I continued to elementary school at SDN. 114371. I had a lot of achievements though. A number of awards for being the 1st place in the class parallel, 2nd winner for mathematics Olympiad at regency level, the best traditional dancer's team, and etc. Then I attended junior high school at MTS. Al-Ikhlâs. I continued became a traditional dancer and got the 1st place in the class until 9th grade. Aside of it, I tried a new journey for became a Qari'ah. I joined MTQ annually and thankfully I got many medals and trophies. Then, I joined AKSIOMA and became a school representative and it still continued until I was in senior high school at MAN Labuhanbatu. But at that time I left my dance because I was too shy to did it again as I got older. Now I am a college student at State Islamic University of North Sumatra (UINSU) and still continuing. I plan for work after finishing my study there.

I realized my life was getting hard when I turned about 16 years old and continuous on. I forgot what I was going through; I just realized I have changed. I have heavy thoughts, unstable mental health, feels anxious almost every time, decreased healthiness, and have a messy sleep-time. I thought I lost control of myself. Throughout the years I have had some obstacles, but I am feeling grateful because of that I learnt a lot and became stronger –although it still called obstacles.

As I said in the beginning, I was born in Ajamu and still live in that place. I am not sure I will spend my whole life there because I like something new such as new environment. I would like to travel to the place that I have dreamed and I want to live there as well. But unfortunately, I have not get permission from my parents. So, I am still here. I hope you get enjoyed while reading my short story as excited as I wrote this for you. I just would like to say: how hard the life is, just take the lesson from there.

Name : Tasya Ramadhani (0304192128)

Class : TBI-3 / Sems III

Subject: Advance Writing

My Autobiography

November 28th, 2001 was my birthday. And my mother named me Tasya Ramadhani, family and friends used to call me Aca. Actually I am a twin, my twins name is Tiara Ramadhani. I was born at one of the hospitals in Medan, Sumatera Utara. My mother was birth me in a manner of Caesarean section, so I do not know how long the distance we were born. My parents got divorced when I was 2 years old. Since their divorce, I have not seen him. I also never saw his picture so I really did not know what he looked like. I never asked my mother and I never got curious.

I went to elementary school at 5 years old, that is one year ahead of my other friends. My mother always gave me the best things so that I grew up as a cheerful child and was curious about many things. Me and my twins always got top marks during elementary, middle high school and senior high school. In elementary school I liked math subjects very much but I hated English subjects. But in the third grade of middle high school, I started to like English. It all started when I had to explain the whole English material. I was terrible, but my teacher gave me the magic word "excellent" I was shocked and so happy.

In senior high school, I really like Japanese and English subjects. I'm taking extra English and Japanese classes. Thanks to good communication with Japanese, I was given a smart phone gift from him. But after all, my mother prefers that I learn English, that is how I ended up in English department at this moment. I know I have so many flaws but I will always to study and do my best as my promise to my mother.

I really want to study in abroad that based in English. I know it is not easy, but no one of us can guarantee anything in life. I have a lot of obstacles ahead and I believe if I meant it, I would have been able to get through it. My life goal is to make my family happy especially my mother. I always proud of her and I would make her proud of me too.

Name: Peby Utami

NIM: 0304192105

Class: TBI-3/ 3rd Semester

My Autobiography

My name is Peby Utami. I am 18 years old. I live in Padangsidempuan, Sumatera Utara. I was born at Padangsidempuan, 28 January 2002. I am a simple girl. I am slim, tall, dark skin and have a straight black hair. I also have sharp nose. I am a kind of person who is shy first but when you know me well, you will see crazy me. They say i am a quiet person but they wrong. Actually, I like talking and sharing experience with others. My hobbies are to watch some movies, because it's make me feel happy when i am bored and i can get many moral value from it.

I am a third semester of English Education's student studying at Islamic University of North Sumatera. When I was elementary I studied at SD Negeri 15. While in junior highschool I studied at SMP Negeri 1 and senior highschool I studied at SMA Negeri 1. All of my schools are located in Padangsidempuan.

I am the second daughter in our family. I have 3 beautiful sisters. My mother and father are the lucky parents cause they have four beautiful daughters. And of course my father is the most handsome man in our family. My mother's name is Masdariana Dalimunte. She is a teacher. My father's name is Edi Irawan. He is a policeman. My sisters are Puspa Ayu Regitha, Dea Putri Irawan, and Maika Edya Putri. I love my family more than anything. When I was little, many people tell me that my face is like my father. Actually I have realized it, cause I got spirit and strong mind from him.

In my 18 age, I have got many experiences. From a baby girl until I entered to this age where I am no longer a child. My dream is to be an English teacher. But, I have to finish my studies first. I want to be a successfull woman, and make my parents proud of me. I know there are many struggles in our life, but I believe if we work hard, pray hard, and appreciate our parents, God will help us to be a successfull person.

succeeded. I'm not discouraged either. I tried the second path, namely SBMPTN by means of exams. However, I didn't pass either. I almost gave up. When the UMPTKIN pathway opened, my parents suggested that I follow that path, namely by means of exams too. Alhamdulillah, I passed my first choice, namely English education. I am very grateful to be able to graduate at a State University. Although from primary school, it is always private. Now, I am already in 3rd semester of college. I promise I will study hard so that I can be the best graduate and can make my parents proud. Aamiin ya Rabbal Aalamiin ...

Autobiography

My name is Nur Amirah Amanina Lubis. you can call me amirah, mira, or whatever, it's up to you. the important thing is still my name I have 1 younger brother. I am now 18 years old. Many of my friends don't believe it, because at the age of 18 I was already in college. I started attending Kindergarten at the age of 4. My mother said, since I was 3 years old I've asked to go to school. however, 3 years old is not enough to go to school. Finally, my parents sent me to school at the age of 4. after graduating from kindergarten, at that time i was 5 years old. my teacher at kindergarten gave advice to my parents that i should continue tk for another year. so that my age is 6 years old at the age of 6 years, you can register in public elementary schools. however, I don't want to. Finally, my parents agreed to my request. because my age is still 5 years, I can't enter public elementary school. I didn't meet one of the conditions, which is 6 years old. Finally, my parents enrolled me in a private elementary school in Budisatria Medan. My parents are afraid that I won't be able to take lessons easily because I'm not old enough. Likewise with the teacher's reason earlier. But, because of the power of Allah SWT, I was able to receive these lessons. Even I always rank in class. After graduating from elementary school, I tried to register on MTSN. But, I didn't pass. Then, a friend of mine gave me a school registration brochure at MTS AL-JAM'IYATUL WASHLIYAH TEMBUNG. Yeah .. I went to a private school again. At Mts, I always got class rank. In grade 1 Mts, I was ranked 5. That means, in grade 2 I entered the superior class. When in grade 2 and 3 I got rank 3. Thank God .. after graduating from Mts, I enrolled in MAN 2. However, I did not graduate either. While in MAN 2, someone distributed school registration brochures. Namely at MA LAB UINSU MEDAN. Because the facilities are quite good, finally my parents enrolled me in the school. At aliyah, my rank had dropped to 16. Because at that time the competition was very tight. However, I don't want to give up. I always try to study hard. Alhamdulillah, my struggle was not in vain. I was able to get 3rd place. When at the end of 3rd grade, my teacher ordered us to enroll in the SNMPTN course. I chose UNIMED and USU universities. however, I haven't

Name : Filza Afiqah (0304192094)

Class : TBI-3, Semester III

Subject : Advance Writing

Autobiography

Filza Afiqah is my Name, i was a girl born in Medan, North Sumatera where the large natural lake located. on 27th June 2001, as a first daughter of three children. My father's name is Zulkarnaen and my mother's name is Lina Nurliana also my two little brother's name is Habib and Fariz.

A short story, i was started my study at school in Tk hidayatus shibyan after graduated i have continue the primary school in SD Swasta PAB 27 Helvetia but because of my parents decided to move in Medan so i was started my third grade of primary school in SD Swasta Melati untill graduated. Thus, In junior high School i started in Brigjend Katamso 2 and when i was Seniornya high school i started in SMAN 16 Medan, and now i was a college student in Islamic University of North Sumatera.

I was a girl with a big dream in this world and as a first daughter in my family i have a responsibility of my two little brother whenever my parents could not finan igce my siblings life so i can ready to do it. Actually i was teach in one of english course that near my house and i have teach overthere only 6 month means one semester only cause there are some problem so that me out. But there was so amazing experience and meaningful. I am so grateful to be a part of teacher overthere cause my student are very loving and kind and my teach's friends are so good and funny ones.

Actually i have many experience in english language it was begin when i was second grade of junior high school i do not like english every and each that subject about, therefore my parents get in me to english course and on that course my interest on english increase. And the last my journey begini in choosen english departement as college's major. Thus, i am wish i can continue master degree aboard in english speaking country, the reason is during i know some of people study abroad especially on english departement they said it worth it than continue master degree abroad.

Name : Esi Audya Usaida (0304192043)

Class/Semester : TBI-1/3rd Semester

My Autobiography

My name is Esi Audya Usaida. People often call me Esi, Es, or Usaida. I was born in September 4rd, 2001 in Kutacane, Aceh Province. I am the first child of Usman Munthe and Efi Dahliani. I have a little brother named Buah Rezky Anugrah. When I was 6 years old, my family lived in a village name Terutung Pedi but for some reason, we have to moved to another village named Batumbulan.

I started school when I was five years old at Kartini kindergarten in Kutacane. I continued my study at MIN (Madrasah Ibtidaiyah Negeri) Terutung Pedi. Even though my family moved to Batumbulan, I still continued my study there because the distance between the two village was not too far. Then after I graduate from there, I spend my junior high at SMPN Perisai. At there I didn't have many friend. When I was in eighth grade, for the first time I participated in a painting competition and won the third place. Next I continued my high school at SMAN 1 Kutacane. I was just an ordinary student in both senior high and junior high. However, compare to my junior high, my senior high schoolexperience was better. I got more friend at senior high and even have three best friends.

After graduate from senior high, me and my best friend chose different university. Now I am studying at Islamic University of North Sumatra (UINSU) and took English Education as my major in Education and Teacher training Faculty. In Medan, I lived at dorm near the campus. There, I learned how to speak Arabic a little bit.

My hobby is drawing. I have been drawing since I was 8 years old and I want to be an illustrator. My goal is to become a teacher as my main job and at the same time become an illustrator. In order to achieve that goal, now I'm learning both English and drawing.

Reading is also my hobby, especially reading Novel. Because of that, I tried a new hobby namely writing. I tried to make some of short story but the result wasn't good. It seems that I'm not good at writing.

*Appendix IV***Percentage of the Type of Error Made by Male and Female Students****Male Students**

No	Types of Errors	Total Errors	Percentage
