

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Based on the findings and discussion of the research about students' perception on the use of Duolingo application in learning English during Covid-19, it showed that almost all of the students gave a positive perception toward the use of Duolingo application. Duolingo application gives benefits to the students in the learning process especially learning English. 1) This application is interesting and enjoyable so the students feel enjoy learning English at school and home during this Covid 19 pandemic; 2) This application give a positive impact in improving English especially during Covid 19 pandemic; 3) This application allows the students to learn English every time and everywhere whenever students want to learn English.

On the other hand, The students felt free to improve their English skills like listening, speaking, reading, and writing by using that application and they also can practice their English in daily life. Students get the new vocabulary and some words in English by translating exercises in Duolingo. That application helps the teacher and the students to reach learning objectives especially in English although the students do not meet the teacher directly because of Covid 19, they can learn at home by themselves using that application. As the conclusion of the whole page, the researcher concluded that almost all the students had a positive perception of Duolingo application. They also agree and believe that the use of

Duolingo application is necessary and help them in learning English and improving their English during Covid 19 pandemic.

B. Suggestion

Related to the conclusion above, suggestions were put forward as follows:

1. For the Student

The students are suggested to give attention and focus during teaching and learning English in the class or virtual class during Covid 19. Because Duolingo application makes them easier to learn and understand English. they can use it whether at school or home. The students can improve their English through the way they like. Not only using the textbook, they also can use English language applications to avoid boredom in learning English.

2. For the Teacher

The teacher should use a new teaching method and strategy in order to the students are always interested to learn English. She should try to use technology or language learning application to motivate the students to learn English because the teacher seldom meets the students or just meet the students in a short time during Covid 19 that's why the teacher should give motivation and support to the students.

3. For Further Research

The further research is suggested to develop this research with the newest result. Hopefully, this research is expected to be able as the reference and experience to enrich the knowledge.
