ABSTRACT

This research was conducted in order to improve learning activity and competence in the form of writing skills for students of class XI MIA-1 SMA Nurul Iman Tanjung Morawa in making analytical exposition texts. The type of research used by the researcher is classroom action research (CAR) with Kemmis and Mc Taggart modes which was carried out in two cycles. The subjects of this study were students of class XI MIA-1 Private SMA Nurul Iman Tanjung Morawa for the academic year 2021/2022, totaling 33 students. Data collection techniques carried out by researchers in this study were observation, test and documentation, observation to determine the increase in student activity and tests to test students' cognitive competence (writing skills). The success indicators made in this study are more than 70%, student activity is more than 70% and the KKM value is 71. The results of this study indicate that the Discovery Learning method can improve the learning activities of students in class XI MIA-1 SMA Nurul Iman Tanjung Morawa. This can be seen from the increase in each cycle, namely the percentage of student activity in the first cycle as much as 43.23% then in the second cycle it increases by 82.26%. Based on these percentages, it can be said that student learning activities have reached the predetermined success indicator, which is 70% and there is an increase in students' writing skill competence in each cycle with the average pretest score obtained at 62.39 and the percentage of completeness 30.3%. , after being given treatment in the first cycle the average value of completeness obtained was 71.12 and the percentage of completeness was 66.66%, then given treatment again in the second cycle the average value of completeness obtained was 78.48 and the percentage of completeness was 90, 9%
