APPENDIX 4

KEY ANSWER OF PRE TEST

Instructions: Make a narrative paragraph with theme “My family” by your own word!

Answer:

My family consists of five members: me, my dad, my mom, my older sister, and my older brother.

My dad is an incredible guide and mentor. He works tirelessly and always encourages me to overcome challenges while remaining gentle and supportive. He has taught me the importance of honesty and courage, and I will always remember his advice to keep praying and reading the Qur’an, as it provides guidance and strength wherever I am.

My mom is exceptionally kind and dedicated. She stays awake all night when I’m sick and is firm with me when I make mistakes. She wears many hats—she is our cook, doctor, teacher, and so much more. Despite her many roles, she has a remarkable ability to understand my feelings even when I don’t express them. Her willingness to sacrifice everything for our family makes her truly special.

My older sister is not only smart but also has a talent for singing. She constantly motivates me to stay enthusiastic and positive, and she is the best at lifting our spirits when we’re feeling down. Her support and encouragement are invaluable to me.

My older brother is very friendly and kind, though he tends to be quiet around people he doesn’t know. However, he becomes very lively and engaging when he’s with family and close friends.

I deeply appreciate and love my parents and siblings. Everything I have achieved and the person I’ve become are thanks to their unwavering support and blessings.

KEY ANSWER OF POST TEST (Kelas Kontrol)

Instructions: Make a narrative teks with theme “My school” and used by your own word!

Answer:

School Life is the best time of our life as we make new friends, learn new things and build our career there. School time is the only time which we enjoy most, and when we enter college, we always miss our school life. School life teaches us lots of new things and prepares us to face all the challenges of life. I love my school life and really enjoy it. I have lots of friends. I love my school and enjoy going there every day to meet my friends and learn new things.

I study in the reputed school in my city, and I am glad to be the student of this school. My school is one of the most renowned schools in my town. It is very beautiful and huge. My school has all the facilities for sports, study and other activities. Built-in a two-storey building, it is a Senior Secondary School having Science, Religion, Social, and Language. The atmosphere at my school is delightful. We all students play different games like badminton, basketball, football etc. We have a separate basketball and tennis court.

All the teachers at my school are very dedicated and punctual. They always teach us discipline and ask us to come to school on time. Our teachers love us, and they teach us in a very simple and easy way. Whenever we fail to understand anything, they try to make us understand it again without shouting on us. They give equal attention to all the students, and that is why my school has an excellent academic record.

Every last semester, my school organises an annual cultural festival which lasts for two days. Many cultural events take place within these two days like singing, dancing, debate competition, etc. I love to participate in a novel writing competition every year, and many times I have won prizes as well. Every year, the toppers of our school get awarded on this annual cultural day and we all students love to participate in various events of the annual cultural day.

APPENDIX 6

KEY ANSWER OF POST TEST (Kelas Eksperimen)

Instruction: Make a narrative paragraph based on the film that have you watched and used by your own word!

Answer:

In a small village nestled between rolling hills and lush green fields, there was a school that served as the heart of the community. This school, with its fading red-brick walls and inviting large windows, was a place where children from various backgrounds came together to learn and grow. Every morning, the air was filled with the sounds of laughter and chatter as the students, dressed in their neat uniforms, hurried through the gates, eager to start a new day full of discoveries. Among them was a girl named Rina, who always carried her notebook, filled with dreams and stories she wished to write one day.

Inside the classrooms, the atmosphere was filled with enthusiasm and curiosity. The teachers, with their warm smiles and patient demeanor, guided the students through various subjects, from mathematics to literature. The children, with bright eyes and eager minds, absorbed knowledge like sponges. They worked on group projects, engaged in lively discussions, and participated in hands-on activities that made learning an exciting adventure. The school's library, a haven of books and quiet corners, was Rina's favorite place. There, she could lose herself in stories and expand her imagination. One day, Rina discovered an old, dusty book that told the legend of their village, and from that moment, she was determined to write a story that could make others feel the same wonder.

Beyond academics, the school fostered a strong sense of community and belonging. Sports days, art exhibitions, and science fairs were events that brought everyone together, celebrating each child's unique talents and achievements. Friendships blossomed on the playground, where games of tag and hide-and-seek

were played with boundless energy. Rina and her friends often ran around the field, joking and planning their next adventures.

One day, the principal, Mr. Andi, made a big announcement. The school would hold a story-writing contest to celebrate the village's anniversary. Rina felt this was the opportunity she had been waiting for. With enthusiasm, she began writing a story inspired by the old book she had found in the library. She worked hard every day, pouring all her imagination and effort into her writing.

When the day of the contest arrived, Rina felt nervous but excited. She saw her friends, teachers, and the entire community gathered in the school hall. After all the stories were read, Mr. Andi announced the winners. With a pounding heart, Rina heard her name called as the first-place winner. Everyone clapped and cheered for her.

Rina not only won the contest but also gained recognition and appreciation from the entire community. Her story was published in the village newspaper, and she was invited to speak about her inspiration. As she walked home with a smile on her face, Rina felt proud and happy. She knew this was the beginning of a new adventure in the world of writing, and that her school and community would always be an important part of her life's journey.
