

## CHAPTER V

### CONCLUSION AND SUGGESTION

This chapter presents the conclusion of the research and the suggestion of the implementation of PQRST technique to improve students' reading comprehension of narrative text.

#### A. Conclusion

As conclusion, the implementation of PQRST technique could improve students' reading comprehension of narrative text because it has given the positive impact for the students. The implementation of PQRST technique makes students interested because this technique make the student's easy to understand and comprehend the narrative text, so that that enjoy in teaching learning process.

On the other hand, the students' score in every cycle has increased as well. This was proven by the result of test in every cycle. There was significant increase in students' mean score, which was 65 in the pre-cycle that has increased to 71 in the cycle I and it has increased to 81 in the cycle II.

Therefore, the hypothesis of this research in which the students' reading comprehension of narrative text could be improved by PQRST technique at the ninth grade of SMP Muhammadiyah 56 Binjai.

#### B. Suggestion

Based on the result of this study, the researcher give suggestion for the students, teacher, and further researcher, as follow:

### **1. For the English Teachers**

The implementation of PQRST technique can be used in narrative text learning. Hence, the researcher suggests to English teachers to implement PQRST technique in the learning process. Because the implementation of this technique can make students enthusiastic and interesting when studying and can improve students' reading comprehension.

### **2. For the Students**

The researcher suggests to the the students that the students should be active in the learning process in the classroom. Besides, the students should also have learning motivation so that students can focus on the material that the teacher explains.

### **3. For the Further Researchers**

It has been known from the result of this study by the implementation of PQRST technique has improved the students' reading comprehension of narrative text. The researcher wants to give suggestion to the next researchers that PQRST technique can be used as an additional reference for further research with different samples and opportunities.
