

CHAPTER V

CONCLUSION AND SUGGESTION

5.1. Conclusion

Based on the results of research conducted by researcher using the WordUp application in EFL class: effectiveness based on students' perception which was carried out at SMP IT Al Hijrah Laut Dendang in classes IX A (male) and IX (female). The researcher concluded that students thought that learning English using the Wordup application could help students understand English material, be easy to understand and apply in learning. Apart from that, learning using mobile can increase motivation in learning so that students' interest in learning increases and can be developed through this application. In accordance with students' recognition that the importance of English makes them able to help with the challenges of the times because all industries use English, be it technology, economics, business, including education. From explanation above it can be conclude:

1. Students' perception on wordup application in learning English, as follow : a) Wordup application can help students in learning, b) Wordup application make it easier students' understanding, c) Wordup application can increase students' vocabulary, d) Wordup application motivates students in learning, e) Wordup application can help students to speak English,

1. Students' challenges of using wordup application in learning English

a. Unstable network and error as barriers to learning. The internet network is one of the factors that makes success and fails the learning process. This has a big influence on student learning and teacher teaching in the classroom. If the network is stable then the learning process can run well. If the network is unstable then the learning process becomes hampered. As we know, a smooth network is the main support when the application is used.

1.3.1. Students' expectation on wordup application in learning English is

a. Wordup application can improve self-development.

From the discussion above, it can be concluded that the Wordup application is an English learning medium that has many benefits. Most of the items available in this application can improve vocabulary, speaking, and motivation. Apart from that, students experience many other benefits from the application.

1.4. Suggestions

Based on the findings of this research, there are some suggestions from the research it is recommended for English teachers to always innovate and develop learning methods in

delivering material to students. In this modern era, teachers can easily increase their knowledge by utilizing technological advances to create a pleasant learning atmosphere. Furthermore, It's suggested for the students to be active in learning process and give positive contribution. And students should be always enthusiastic in learning with various learning activities and remain independent when study at home and responsible for everything that is done and has been be responsible for himself. And the Last, It is recommended that other researchers be able to develop this research better when conducting research on topics related to English language learning using the wordup application.
